

Cornhill Building & Fabrication PTY Ltd.

First for Quality Engineering & Service

Cornhill Building is a specialist in the Construction and Maintenance industry dedicated to providing excellent services, supplies and advice.

Drawing on its base of experienced and skilled labour as well as up-to-date equipment and other material resources, Cornhill Building is able to deliver quality service expeditiously and seamlessly.

Cornhill Building is centrally located at Hopelands which is between Mandurah, Rockingham and Serpentine alongside the Kwinana Freeway. Our centrally located position helps to service a vast and populated area and is located for easy access to travel out to most areas within and around the Perth area.

Our premises are situated on 8 acres of light industrial land with large workshops, storage areas and offices. The company has in excess of \$3 million worth of plant and equipment on site to be utilised without the expense of hiring from outside sources.

The company services the public sector, commercial and mining industries in all aspects of construction, maintenance and supply. The company is also focused and committed to ongoing growth within the building insurance sector, both residential and commercial.

Our Mission

Our company mission is to provide excellent cost efficient services and to generate profit whilst building relationships with staff and clients alike, based on integrity and trust.

We are driven to satisfy our client's dynamic needs by creating sustainable solutions that exceed expectations. Cornhill Building is dedicated to the idea that every client is a long term relationship.

Specialist Mine Contractors

Over the years the work handled by the company has grown considerably and currently Cornhill Building secure tenders to Alcoa Mining at Pinjarra, Huntly and McCoy mine sites.

The company also has ongoing contracts with Orica mining and construction, while also servicing local business and residential customers.
